GMS – People

Adding a Coach/Team Manager to a Team

Introduction

A club can create all its Teams in GMS, once all the Teams have been created, upon registering players for the clubs, based on the age of the player or eligibility requirements and the parameters of the team (age grade) the players will be mapped to their applicable Team.

This allows the club administrators to have an overall picture of its Teams and players that are eligible to play in those teams.

The GMS systems also permits the assigning of coaches and team managers to specific teams. Allowing them to manage that team and obtain their players details.

Based on permissions, the coaches and team managers will ONLY have access to that Team of players

1. Assigning Coaches to Teams

To add a coach to a Team, select **Club Profile**

The screenshot displays the GMS user interface for Maxwell Burton. At the top, it says "Welcome Maxwell Burton" and "Please select the area of the system you wish to visit today". Below this is a grid of navigation options: "Personal Details", "Club Profile" (highlighted with a red circle), "People", and "Player Registration v12". Below these are smaller icons for "CompetitionM...", "Course Administration", "Finance", "Discipline", and "Match Official Expenses". To the right, there is a "Support" section with contact information and hours, and an "Information" section with browser recommendations and system settings.

Welcome Maxwell Burton

Please select the area of the system you wish to visit today
